1 Introduction

1.1 Objectives

The key objectives of this Policy are to:

- provide clear guidelines and procedures for dealing with customer complaints relating to financial services, privacy and energy;
- ensure that complaints are dealt with fairly, efficiently and effectively; and
- ensure that systemic and recurring problems are identified and rectified.

1.2 Scope

This Policy has been developed having regard to the complaints handling requirements of:

- the Australian Financial Services Licences (**AFS Licence**) of the following Mirvac Group companies:
 - > Mirvac Funds Limited;
 - > Mirvac Funds Management Limited; and
 - > Mirvac Funds Management Australia Limited.
- the Constitutions of any trusts, funds or schemes managed by a Mirvac Group AFS Licensee
- the Corporations Act 2001;
- the Privacy Act 1988;
- ASIC Regulatory Guide 271 *Internal Dispute Resolution* (September 2021);
- the guidelines set out in Australian Standard AS ISO 10002-2014: Customer Satisfaction - Guidelines for Complaints Handling in Organisations; and
- NSW Ombudsman Complaint Handling Model Policy.

This Policy applies to complaints made in respect of:

- the provision of any financial services by a Mirvac Group AFS Licensee, including complaints made by or on behalf of an investor or security holder in a registered or unregistered managed investment scheme offered by a Mirvac Group AFS Licensee where:
 - the managed investment may be listed on the ASX or unlisted;
 - the complaint relates to units or securities (including their price, return, value, resale, or performance) or the management of a managed investment scheme by a Mirvac Group AFS Licensee; or
 - the complaint relates to an AFS Licence held by a Mirvac Group AFS Licensee; and
- the sale of energy and related services to a customer by a Mirvac entity as an owner of an embedded owner.

Terminology used throughout this Policy is defined at the end of this document.

2 What is a complaint?

The Australian Standard AS ISO 10002-2014 on complaints handling defines a complaint as any expression of dissatisfaction made to or about an organisation¹, to its products, services, staff or the complaints handling process itself, where a response or resolution is explicitly or implicitly expected or legally required.

ASIC considers the following expressions of dissatisfaction are complaints:

- posts on a social media channel or account owned or controlled by Mirvac that is the subject of the post, where the author is both identifiable and contactable (note this does not include complaints made on third party social media accounts or channels); and
- complaints about a matter that is the subject of an existing remediation program or about the remediation program itself (e.g. delays, lack of communication);

A complaint covered by this Policy can be distinguished from:

- employment related complaints raised by staff; and
- comments made about a firm where a response is not expected, such as:
 - feedback provided in surveys; or
 - reports intended solely to bring a matter to Mirvac's attention with no expectation of a response (for example, a customer notifying Mirvac that their website is down).

In terms of financial services, examples of the nature of complaints that may be received include an investor not being satisfied:

- with the level of their investment's performance;
- about not receiving a distribution cheque on time;
- about having their change of contact details recorded incorrectly;
- about continuing to receive marketing material when a request was made to not receive marketing material in the future, or for their details to be removed from any mailing list; and
- with the way their personal information is being handled.

4 Complaints management system

4.1 Receive and acknowledge

We adopt a positive attitude towards the investor or customer and commitment to resolving the complaint as soon as practicable.

Complaints from investors or customers may be received by telephone, facsimile, in person, by written letter or by email.

If a verbal complaint is received directly by a Mirvac representative, either in person or over the telephone, the investor or customer should be referred to the relevant Complaints Handling Officer depending on the nature of the complaint. If the Complaints Handling Officer is not available to speak to the investor, the investor's or customer's name and contact details should be taken and the investor or customer should be advised that they will be contacted as soon as possible. All written complaints received should be forwarded directly to the relevant Complaints Handling Officer for investigation.

Unless the complaint has been resolved at the outset, we will record the following details for each complaint:

- the contact information of the person making a complaint;
- issues raised by the person making a complaint and the outcome/s they want;
- any additional support the person making a complaint requires.

Unless it is a verbal complaint which has already been resolved at the time of the complaint, we will, within 24 hours (or one business day) or as soon as practicable, acknowledge the receipt of the complaint in writing. Consideration will be given to the most appropriate medium (e.g. email, letter or social media channels) for communicating with the person making a complaint taking into account the method used by the complainant to lodge their complaint and any preferences they may have expressed about communication methods.

Subject to any statutory requirements, complaints handling will be conducted at no charge to the investor or customer making the complaint.

4.2 Assess and investigate

After acknowledging receipt of the complaint, we will confirm whether the issue/s raised in the complaint is/are within our control. We will also consider the outcome/s sought by the person making a complaint and, where there is more than one issue raised, determine whether each issue needs to be separately addressed.

When determining how a complaint will be managed, we will consider:

- How serious, complicated or urgent the complaint is
- Whether the complaint raises concerns about people's health and safety
- How the person making the complaint is being affected
- The risks involved if resolution of the complaint is delayed, and
- Whether a resolution requires the involvement of other organisations.

The relevant Complaints Handling Officer should promptly, but in any event within 10 Business Days of receiving the complaint, provide a written response to the investor or customer committing to a course of action as a result of the initial assessment and investigation. If the complaint relates to the provision of information readily available, then the complaint should be resolved immediately. If the complaint needs further investigation or the course of action is unknown, the investor will be advised that further investigation is required and the time frame in which they will be contacted about their complaint.

The relevant Fund Manager (if relevant), Group Compliance and/or Mirvac Group Legal (where necessary) will review and approve the draft letter prior to being sent. The complaint should be followed up as often as necessary in order to achieve an amicable outcome with the investor.

Objectivity and fairness

We will address each complaint with integrity and in an equitable, objective and unbiased manner.

We will ensure that the person handling a complaint is different from any staff member whose conduct or service is being complained about.

Conflicts of interests, whether actual or perceived, will be managed responsibly. In particular, internal reviews of how a complaint was managed will be conducted by a person other than the original decision maker.

Responding flexibly

Our staff are empowered to resolve complaints promptly and with as little formality as possible. We will adopt flexible approaches to service delivery and problem solving to enhance accessibility for people making complaints and/or their representatives.

We will assess each complaint on its merits and involve people making complaints and/or their representative in the process as far as possible.

Confidentiality

We will protect the identity of people making complaints where this is practical and appropriate.

Personal information that identifies individuals will only be disclosed or used by Mirvac as permitted under the relevant privacy laws, secrecy provisions and any relevant confidentiality obligations.

4.3 Providing reasons for decisions

Following consideration of the complaint and any investigation into the issues raised, we will contact the person making the complaint and provide them with a formal response advising them:

- the final outcome of the complaint (either confirmation of actions taken by the firm to fully resolve the complaint or reasons for rejection or partial reject of the complaint);
- if the complaint was rejected or partially rejected, the reason/s for our decision by:
 - identifying and addressing the issues raised in the complaint;
 - setting out the Mirvac's findings on material questions of fact and referred to the information that supports those findings; and
 - providing enough detail for the complainant to understand the basis of the decision and to be fully informed when deciding whether to escalate the matter to another external ombudsman or oversight body (such as AFCA or OAIC).
- any options for review that may be available to the complainant, such as an internal review, external review or appeal (see below suggested wording).

The remedies that may be available to the customer or investor will depend on the nature of their complaint and the rules of the relevant trust, fund or scheme. By way of example, the remedies could include, as may be applicable, any one or combination of the following:

- information and an explanation of the circumstances giving rise to the complaint;

6 Monitoring of the Complaints Register

Group Compliance maintains the Complaints Register.

It is the responsibility of the relevant Complaint Handling Officer to report all complaints received and actions taken to Group Compliance to be recorded in the Complaints Register.

The Complaints Register is updated regularly to enable the status of a complaint to be readily ascertained at any point in time. The Complaints Register records who the complaint was from, the nature of the complaint and all actions taken in respect of the complaint received and when it has been resolved.

The Complaints Register is reviewed regularly by Group Compliance and reports to the Mirvac's Audit, Risk and Compliance Committee each quarter:

- on the level of complaints received;
- on resolution of complaints in accordance with the Complaints Handling Policy and the Constitution/Trust Deed; and
- whether the complaints received to date indicates any possible systemic issues.

Escalation of complaints will occur if the resolution is not proceeding in accordance with the Complaints Handling Policy, as determined by Group Compliance. If Group Compliance identifies a complaint of a recurring or systemic nature, it will be investigated (including advising the relevant Fund Manager and Mirvac Group Legal where necessary) and if possible, appropriate action taken to prevent the cause of the complaint from occurring in future.
