

Harbourside Redevelopment (SSD 7974) Issues Register

Updated: 29 November 2023

In accordance with B5 (a) (Viii) of the [Harbourside Redevelopment SSD 7874 Conditions of Consent](#) this register is to be updated monthly and uploaded onto the project website until the completion of all works under the Conditions consent.

Date of Issue	Enquirer Category	Nature of Issue	Response	Status
15/11/2023	Local resident	Excavated site material located within the site in front of neighbouring residential building. Concern regarding health impacts from the material and request for the removal of material from the site.	<p>The soil is temporarily located in this location for testing purposes. The soil is a natural shoreline material that has been segregated from the remaining material as it is being excavated from site. The soil contains natural marine sediments including shells and other organic matter. This is required to be segregated as it is classified as a different material to other soils found on site.</p> <p>Testing on this natural material has now been completed and will be removed from the site once testing results are provided. The soil is not a risk to human health.</p>	Closed
